

Jerez / 06 -07 -08 March 2026

(Friday - Saturday - Sunday)

Track days with division into categories and race with final awards

Jerez is approximately 90 km from Seville, the climate is excellent, the winters are mild and the temperature in that period is around 20-25 degrees. The city center is just 15 km away from the circuit. Direct flights to Seville from all major European airports.

ATTENTION: In Spain it is MANDATORY for all participating pilots to be covered by insurance. The foreign rider's license or private insurance that covers medical expenses in the event of an accident on the track abroad are valid.

Anyone without valid insurance must purchase the Spanish "RBG" insurance at a cost of €30.00 per day. Please note: the maximum age to activate this insurance is 65 years.

ATTENTION: the above prices for bike transportation are NOT valid for motorcycles equipped with wings (eg Ducati V4R - BMW M1000RR etc.) as they take up more space

Alternatively, in order to take advantage of the "basic" transport rate, you can deliver the motorcycle with the fins previously disassembled by your care.

MOTORCYCLE TRANSPORT RULES

The tariff regarding the transport of the motorcycle allows you to transport, in addition to the motorcycle, the following material:

1 Bag with clothing (overalls, helmet, boots, gloves, etc.)

1 Bag or backpack

1 Toolbox (no trolley) max size 40x20x20

1 Set of bike-stands

1 Plastic petrol tank (strictly empty)

1 folding chair

3 pairs of tires

There is no petrol station inside the circuit, so remember to bring the tanks!

Travel and hotel reservations are not included!
